

Gabi

Regina 12/07/05

Gabi loves to leap in the air and do a half twist.

He loves balls. Just today he was playing with a string that he found on the Gym floor. He is so funny. The weird thing about him is that he will go wild when we take him outside but when he is in the classroom he is calm and goes to sleep. He is so happy when he comes to our classroom. I love him. I treat him like he is my own dog. He loves, he's caring, he's well trained, and he is everything a person would look for in a dog and a friend.
